## **10 Tanker Air Carrier to Relocate to Casper**

CASPER, WY – Casper / Natrona County International Airport Manager Glenn Januska and 10 Tanker Air Carrier President/CEO Rick Hatton announced 10 Tanker Air Carrier's planned relocation to Casper and the Casper/Natrona County International Airport.

"Our working relationship with 10 Tanker started last year during the fire season and they certainly proved their value as one of their DC-10 aircraft was used from our Airport for fires in Nebraska, South Dakota, as well as the Sheep Herder and Jackson Canyon fires," said Glenn Januska. "They are a tremendous asset to the United States and their work with the U.S. Forest Service."

"The Casper/Natrona County International Airport and its' operational environment and the central Wyoming location is truly an ideal location for our company providing improved response times to the mountain west region. This move will allow increased utilization of our aircraft and services as a national asset," said Rick Hatton. "We look forward to becoming part of the Casper community."
