FOR IMMEDIATE RELEASE

October 5, 2010

**AIRPORT RECEIVES CT-80DR EXPLOSIVE DETECTION SYSTEM (EDS)  
CHECKED BAGGAGE SCREENER**

CASPER, WY – Casper / Natrona County International Airport announces the installation and operation of a new CT-80DR Explosive Detection System (EDS) checked baggage screener. The Reveal EDS, located in the terminal ticket counter area, is designed to process 225 bags per hour. “The new EDS will be a great tool for the Transportation Security Administration (TSA) to use for screening checked baggage,” said Glenn Januska, Airport Manager. “The fact that it’s automated and able to process checked baggage faster will continue to increase in importance as we add more flights and seats in our market.”
