AIRPORT RECORDS 23.6% PASSENGER INCREASE IN JULY

CASPER, WY – Casper / Natrona County International Airport announced a 23.6% increase in passenger enplanements (passengers getting on aircraft) in July compared to July of 2011. “July was a very, very strong month for us,” said Glenn Januska, Airport Manager. “I think this increase is directly attributable to Delta adding regional jets in July, United adding the 5th daily regional jet flight, and Allegiant upgrading their aircraft to 166 seats. Not since 2005 have we seen this type of passenger level.” Passenger enplanements show a 6.7% increase through July compared to the same period last year.
