FOR IMMEDIATE RELEASE

August 9, 2013

AIRPORT RECORDS A 1.3% PASSENGER DECREASE IN JULY
18.7% Increase Year-To-Date

CASPER, WY – Casper / Natrona County International Airport announced that 8,666 enplaned passengers (passengers getting on aircraft) used the Airport in July, a 1.3% decrease compared to July of 2012. This is the first decrease in passenger traffic when compared to the previous year in the past 18 months. “While we were hoping for a stronger number, 8,666 passengers still represents a strong demand, particularly compared with our recent history,” said Glenn Januska, Airport Manager. “We’re still showing a nearly 20% increase year-to-date and the airline load factors, which is the percentages of seats full, are strong which is a good indicator of airline profitability.”
