

## Casper/Natrona County International Airport Transient Aircraft Parking Area

That Airport provides a transient aircraft tie-down area for those transient pilots who desire to use it. The tie-down area is located immediately northeast of the Airport Public Safety building (fire house) and is outlined in a yellow box (paint). The Airport provides tie-down anchors, but aircraft operators will need to bring tie-down rope to secure the aircraft. There is a designated walk-way from the tie-down area to a walk-through gate. For re-entry, aircraft operators are asked to call the Airport Public Safety Department at 307.995.3949 no less than 20 minutes before re-entry is needed. Re-entry is granted between the hours of 5 am and 11 pm unless other arrangements are made in advance. The Casper/Natrona County International Airport assumes no liability for damage which may occur to aircraft parked in this area.
