**CASPER / NATRONA COUNTY INTERNATIONAL AIRPORT**

**EXPERIENCED 10-YEAR HIGH IN ANNUAL ENPLANEMENTS**

CASPER, WY – The Casper/Natrona County International Airport (C/NCIA) has reported 103,763 total enplanements, or passengers boarding aircraft in Casper, for 2025. This is the highest number of annual enplanements C/NCIA has seen since 2015.

After experiencing a steep decline in passengers during 2020, due to the pandemic, C/NCIA enplanement numbers have been steadily increasing since.

“Exceeding 100,000 enplanements is very exciting for us,” said Airport Director Glenn Januska. “We appreciate every person who has flown through Casper and look forward to continuing to serve the community.”

C/NCIA believes that the high enplanement numbers could assist in bringing new travel opportunities to town.

“When looking at additional destinations, or alternate airlines, which we know is a concern for some in Casper, it helps to have a proven record of people taking advantage of the services we already have,” said Januska.
